

2021 STARTING CLASSIFICATIONS

The 2020 season was a wild one shortened by the COVID-19 pandemic with every team's schedule turned upside down at least twice! Because the season was so short, it was impossible to do any early, mid or late season classification adjustments. The after effects of the abbreviated season have left us with the majority of standard data points used to classify teams not being available. Even now, looking back at the 2020 rankings, most team's statistics are skewed and unbalanced by the lack of natural game results.

Attempting to do reclassification with such immense variances in available statistics has been extremely difficult to say the least. Because of this lack of data our standard formula could not be used. Instead, a modified version of the collected data was evaluated and a special one-off method was used to set the 2021 Starting Classifications.

TWO EXTREMELY IMPORTANT ITEMS must be kept in mind...

1. The same exact method was applied to each and every team in each and every respective age division and classification; making the system objective across the board.
2. These are merely a **STARTING** point for all teams. Pursuant to USSSA Rule 2.05; any team can be reclassified up or down at any time during the season.

Teams are expected to follow these assigned Starting Classifications. However, a small percentage of teams will try to manipulate the rules by changing their team name or manager name, adding players beyond the scope of the rules or just be unethical. It takes a cooperative effort by the State Office and **ALL** teams to supervise Starting Classifications / Reclassifications. If you see a team on USSSA.com that's classification doesn't match this report, or has pulled the team name / team manager switch-a-roo, or is not following the "spirit of the rules", email the State Office. The State Office **NEVER** shares anonymous email information with anyone outside office staff.

Trophy Hunting and Sandbagging shall not be tolerated in USSSA Baseball. Prevention of both acts is a TOP PRIORITY! It is the responsibility of EVERY team to monitor all other teams in their classification and report any possible violators to the State Office. Emails may be sent anonymously to ga.baseball@usssa.com. The State Office NEVER shares anonymous email information with anyone outside office staff.

A. Classification Notes

1. **USSSA Rule 3.02.C:** A team with six (6) or more players from the same frozen previous season roster or a combination of six (6) or more players from the same frozen previous season classification or End of Year classification regardless of previous or current team names, Team Manager names, or Sponsor names must START the current season at the highest classification or End of Year classification assigned to any of the previous season team names.
2. **Process:** The statistical data used in the Starting Classification / Reclassification process is based on a team's nucleus remaining intact. Obviously team rosters will change somewhat from year to year but such statistical data will continually be relative and comparative to the specific age division of teams being evaluated. For this reason, the following "Rule of Thumb" shall apply with regards to team classifications in any given age division:
 - a. The Major classification shall consist of the top 12% (+/- 5%) of teams in the state.
 - b. The Triple-A classification shall consist of the next 44% (+/- 5%) of teams in the state.
 - c. The Double-A classification shall consist of the following 44% (+/- 5%) of teams in the state.

B. Classification Appeals

Teams that oppose their assigned 2021 Starting Classification may file an appeal with the State Office. Such teams will fall into one of four categories:

1. Teams wanting to move up to a higher classification.
2. Teams wanting to move down with fewer than six (6) players.
3. Teams wanting to move down with six (6) or more players.
4. Teams newly registered in the Fall of 2020.

Regardless of category, the following outlined protocol **MUST** be followed.

ALL appeals **MUST BE SENT VIA EMAIL** to: ga.baseball@usssa.com by the Team Manager of Record in the USSSA.com system. Please include complete contact info in the email. Appeals not sent to the correct email address or from any person other than the Team Manager of Record in the USSSA.com system, shall not be heard, considered or adjudged.

After the State Office reviews the appeal, additional information may need to be obtained via contact with the Team Manager of Record in the USSSA.com system (thus the importance of including complete contact info in the original appeals email).

1. Any team appealing to be moved up to a higher classification may do so by following the above email procedures for an immediate modification.
2. Any team appealing to be moved down with fewer than six (6) players from the same frozen 2020 roster or a combination of fewer than six (6) players from the same frozen 2020 classification or End of Year classification should contact the State Office for a **COMPLETE ROSTER REVIEW** to determine their proper 2021 Starting Classification.

Note: Do not contact the State Office until the team roster is online and complete. If the Complete Roster Review warrants a move down in classification, the team roster WILL BE LOCKED and all roster changes for the remainder of the season shall be performed by the State Office. Attempting the addition of players from a higher classification after being moved down in classification WILL NOT BE ALLOWED!

3. Any team appealing to be moved down with six (6) or more players from the same frozen 2020 roster or a combination of six (6) or more players from the same frozen 2020 classification or End of Year classification, regardless of previous or current team name(s), manager name(s) or sponsor name(s) may only do so **AFTER** having competed in a minimum of six (6) games against teams **IN THEIR NEW CLASSIFICATION**. Games must be played in USSSA sanctioned events and must be played against opponents with online rosters in the team's new classification. Games played outside the authority of USSSA (in another organization) **ABSOLUTELY** will not be assessed.

Note: Until the above "minimum of six (6) games against teams IN THEIR NEW CLASSIFICATION" requirement is met, NO appeal shall be heard, considered or adjudged.

4. Any team newly registered in the Fall of 2020 (a "new" team is defined as a team that has rostered no players with 2020 or previous seasons USSSA playing history) should contact the State Office for a **FALL PERFORMANCE REVIEW** to determine their proper 2021 Starting Classification.

C. Starting Classification Report

The Starting Classification Report is collated by age division, classification and team name from the previous season. To locate a specific team, look for the team's 2020 age division, 2020 classification and 2020 team name. New teams registered and playing in the Fall of 2020 for the 2021 season

REMEMBER...

It takes a cooperative effort by the State Office and ALL teams to supervise Starting Classifications & Reclassifications.

- If you see a team on USSSA.com that's classification doesn't match this report, send an anonymous email to ga.baseball@ussa.com. The State Office NEVER shares anonymous email information with anyone outside office staff.
- If you see a team on USSSA.com that's pulled the team name / team manager switch-a-roo, send an anonymous email to ga.baseball@ussa.com. The State Office NEVER shares anonymous email information with anyone outside office staff.
- If you see a team on USSSA.com that's not following the "spirit of the rules", send an anonymous email to ga.baseball@ussa.com. The State Office NEVER shares anonymous email information with anyone outside office staff.

Together, we all can make a positive impact in the development of each and every participant!!!
